Instructor Comments - Myrna Layton

Teaching challenging concepts and skills

-
1. I was actually not aware that any of the concepts were particularly challenging--although perhaps that's just evidence that were presented well.
-

Organizing course content to enhance learning

-
1. I especially loved the guest lecturers and being able to learn about all aspects of the library.
-

Meaningful opportunities and encouragement

-
1. More than half of class time was spent actively practicing library research skills (which was the whole point of the class).
 2. I always felt like I learned something new every day in this class. I also felt like I learned very important information about resources that I can use in my other classes and in the future. This class has been extremely beneficial and enjoyable.

What effect did this course and instructor have in helping you achieve the Aims of a BYU Education?

Leading to lifelong learning and service

-
1. As a class about research techniques, everything I learned in this class is directly helpful in helping me learn more in the future.
-

Time Spent Outside of Class

-
1. I appreciate that there wasn't much out of class work. I loved being able to come to class not having to worry about assignments and to just be prepared to learn. Thanks for a wonderful semester! -Dallin Baldwin
